

CONTENTS

Volume 17, Number 1 ~ Sept. 2001

4. PRESIDENT'S CORNER

Richard Dolewski

5. TUG BOARD OF DIRECTORS LIST

6. Feature Article: APPLICATION FLEXIBILITY ENHANCED WITH V5R1 DB2 UDB

Kent Milligan – Our September 19th Speaker presents the “Full Milligan” on IBM’s V5R1 DB2 UDB Enhancements.

8. THE CASE FOR I SERIES AND THIN CLIENT COMPUTING

Thibault Dambrine – An in-depth report on the pros and cons of Citrix and RDP, as viable thin-client solutions for the iSeries Platform.

16. THE NEW WAVE OF WIRELESS APPLICATIONS

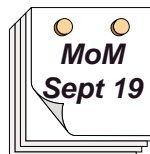

Eden Watt – This article will clarify some of the terminology and provide an overview of the technologies involved with wireless networks, devices, and application deployment over the Web.

20. TRUE UNIFIED COMMUNICATIONS

Scott Welch – “A single-network-based access point from which professionals can manage all of their information and messages, using any number and a variety of access devices...”

24. THE AGENDA

Bios and abstracts of our speakers and topics for the upcoming TUG Meeting of Members (MoM) on September 19th. Our guests will be Kent Milligan (DB2 UDB), and Charles Machalani (Multi-Platform Connectivity).

25. PROJECT MANAGEMENT TALES – OUT OF SIGHT - OUT OF MIND

Debbie Gallagher – Each week, the project manager held a phone meeting with her assistant project manager, to discuss progress on the accounts receivable project. The assistant always sounded confident, and reported that everything was going well in Yorktown, with no significant issues impeding progress....

27. COMMUNICATING WITH SAM

Sam Johnston – Virus Protection: A Code Red Alert for Network Security Computer viruses, as the name implies, have a lot in common with their biological counterparts. They spread and replicate quickly, are difficult to eradicate, destroying everything in their path without discrimination. Like biological viruses, prevention and control are the best means to protection from destructive executable code...

31. BENEFITS OF MEMBERSHIP

Jay Burford – Is TUG part of your ticket to COMMON?

33. EXPERTS DICTIONARY II

Ken Dafoe – More terms for the faint of heart.

35. THE GOLD PAGE

36. BUSINESS INTELLIGENCE with Jackie

Jackie Jansen – DB2 OLAP Try & BUY

37. DIGITAL ART

Mandi D. – “Techno-Flutterby”

38. TUG NOTES

38. INDEX OF ADVERTISERS

Deadline for the next issue: Oct. 12, 2001

TORONTO USERS GROUP for Midrange Systems TUG eServer Magazine

is a regular publication of the Toronto Users Group for Midrange Systems (TUG), and is distributed to members and industry associates six times per year. It contains updates on activities of the group, as well as articles from members and non-members which are of general interest to the “eServer community.” All rights reserved. Articles may be reprinted only with permission. Manuscripts should be submitted to the Editor c/o Eclipse Technologies Inc., 122-250 The East Mall, #1725, Toronto ON M9B 6L3; or via e-mail, at vaughn@e-clipse.ca.

TUG is a not-for-profit organization that promotes knowledge of the iSeries, pSeries, AS/400, RS/6000, and other midrange technologies. Inquiries about the users group should be directed to our Association Manager, Wende E. Boddy, at TUG, 36 Toronto Street, Suite 850, Toronto, Ontario, Canada M5C 2C5. Phone: 905-607-2546 Toll Free: 1-888-607-2546, Fax: 905-607-2547, E-mail: admin@tug.ca.
