

CONTENTS

Volume 17, Number 5 ~ May 2002

4. **PRESIDENT'S CORNER**

Richard Dolewski

5. **TUG BOARD OF DIRECTORS LIST**

6. **Feature Article: INTERVIEW WITH BUELL DUNCAN**

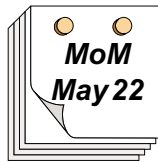

Dan Duffy & Léo Lefebvre – Dan and Léo probe Buell Duncan on the marketing strategy and platform positioning of the IBM iSeries in relation to IBM's other eServers.

10. **TUG MoM REVIEW – THE MARCH 2002 MEETING OF MEMBERS**

Beverley Russell – Bev gives us a re-cap of the March 20, 2002 TUG Meeting of Members (held at the new Toronto/Yorkdale Travelodge Hotel) with excerpts from the excellent presentations by Dave Boutcher (Linux on iSeries), and Alison Butterill (Using SQL in an iSeries HLL).

14. **THE AGENDA**

Our upcoming May 22, 2002 Meeting of Members will be hosted by the IBM Toronto Lab, in Markham. This new software lab facility boasts 563,000 square feet of space, and is home to over 2,000 employees. Register now for this exciting visit.

16. **TEC 2002 - UNLEASH THE POWER - FINAL CONFERENCE GRID**

20. **THE TRIANGLE PUZZLE - SOLUTION**

21. **PROJECT MANAGEMENT TALES – SOMETHING JUST CAME UP**

Debbie Gallagher – When the first meeting was about to begin, the VP Product Development said, very apologetically, that an emergency had just come up on another project and he would be unable to attend the session...

23. **COMMUNICATING WITH SAM – Active Directory Implementation**

Sam Johnston – As the centralized control point that manages and brokers all relationships between various network resources, AD is integral to network operations and is the catalyst that has transformed NT 4.0 from essentially just a server platform to become a full Network Operating System...

27. **THE 14th ANNUAL TUG GOLF CLASSIC**

Registration details

28. **5250 APPLICATION FIREWALL**

Olivier Crouslé – For the security expert, there are two steps to reach a highly secure iSeries environment. For production data and programs, his/her security strategy includes the control of user access and the assignment of ownership and authorities, according to the local policy.

31. **@tug.ca** – Letters to the Editor, etc.

32. **BUSINESS INTELLIGENCE** with Jackie

Jackie Jansen – DBAs – Yes or No?

Because of the tight integration between DB2/400 and OS/400 many functions are not normally thought to require the level of DBA skill necessary with other databases. Does this mean that an iSeries shop can do without a DBA altogether?

33. **THE GOLD PAGE**

34. **TUG NOTES**

34. **INDEX OF ADVERTISERS**

Deadline for the next issue: June 14, 2002

TORONTO USERS GROUP

for Midrange Systems

TUG eServer magazine

is a regular publication of the Toronto Users Group for Midrange Systems (TUG), and is distributed to members and industry associates six times per year. It contains updates on activities of the group, as well as articles from members and non-members which are of general interest to the "eServer community." All rights reserved. Articles may be reprinted only with permission. Manuscripts should be submitted to the Editor via e-mail. (See address below.)

TUG is a not-for-profit organization that promotes knowledge of the iSeries, pSeries, AS/400, RS/6000, and other midrange technologies. Inquiries about the users group, and subscription enquiries, should be directed to our Association Manager, Wende E. Boddy, at the TUG office, **36 Toronto Street, Suite 850, Toronto, Ontario, Canada M5C 2C5.** Phone: 905-607-2546 Toll Free: 1-888-607-2546, Fax: 905-607-2547, E-mail: admin@tug.ca.
