

Randall Munson Creatively Speaking®

Some speakers have solid technological or corporate credentials, others are talented entertainers or best-selling authors, but very few like **Randall Munson** combine it all. He delivers a refreshing blend of inspiration and practicality, sparkling with warmth, humor, and magic. His high-content messages stem from a rock-solid foundation as an IBM Program Manager at the IBM AS/400 Laboratory in Rochester, Minnesota. For 20 years, he led research and development projects with management, programming, architecture, education, and marketing responsibilities. Simultaneously, he performed professionally as a magician, emcee, ventriloquist, and clown. His two paths have now merged, with presentations that combine genuine substance and captivating style. That's

why organizations and Fortune 500 companies such as IBM, Disney, and The White House have resonated to the power of Randall's messages.

Randall Munson has earned the National Speakers Association's Certified Speaking Professional (CSP) designation. The CSP is the highest earned designation in the speaking profession. Less than eight percent of all professional speakers worldwide have earned this prestigious designation.

Having received over 60 Gold Medals for COMMON Speaker Excellence, his presentations are consistently named the best of COMMON USA, COMMON Europe, and COMMON Australia. He is named in the "International Who's Who of Professionals" and "Who's Who in Professional Speaking." He has been inducted into the "Speaker Excellence Hall of Fame" and been selected as one of "The Worlds Greatest Business Mentors."

Randall is the author or co-author of eleven books including the best seller "Create the Business Breakthrough You Want". He has published numerous articles and a monthly column in an international technology magazine. His acclaimed electronic magazine, Business Magic®, is read monthly by thousands of decision makers in all 50 states and more than 70 countries around the world who want to experience the magic of Randall's creative insights, ideas and inspirations for themselves and their businesses.

Randall is the founder and president of "Creatively Speaking®." He holds an MS in Computer Science from the University of Minnesota and he is an Adjunct Professor at the University of Wisconsin.

Whether he's speaking in Paris, Beijing, Sao Paulo, Tokyo, or Toronto, Randall's warmth and humanity require no translation at all!
