

CONTENTS

Volume 17, Number 3 ~ Jan. 2002

4. **PRESIDENT'S CORNER**
Richard Dolewski
5. **TUG BOARD OF DIRECTORS LIST**
6. **Feature Article: Practise Makes Perfect**
"Planning for Disaster Recovery"

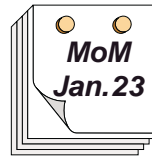

Richard Dolewski – The goal of companies today is to accept no tolerance for downtime in their business. Information is an asset of our company which we cannot afford to lose.

11. THE AGENDA

Bios and abstracts of our upcoming January 23 speakers and topics.

12. USING HTTP BEYOND YOUR BROWSER

Lana Ho – This article offers an overview of how one can use socket applications to connect with external servers over the Internet. All you need is an Internet connection, and a basic understanding of socket programs...

14. TUG MoM REVIEW – THE NOVEMBER 2001 MEETING OF MEMBERS

Eveline Gaede – Eveline gives us a re-cap of the November 21, 2001 TUG Meeting of Members (held at the Howard Johnson Plaza-Hotel) with excerpts from the excellent presentations by Nancy Roper (Storage), and Mira Shnier (iSeries Printing Solutions).

17. PROJECT MANAGEMENT TALES – MULTI-LANGUAGE MIX-UP

Debbie Gallagher – The project manager repeatedly tried to convince Standard to allow direct communication between Acme and the client for clarifying requirements. However, Standard insisted on being the go-between...

19. COMMUNICATING WITH SAM – QoS (Quality of Service) Technology

Sam Johnston – QoS can help you ration bandwidth to ensure that the applications that deliver the most to your business get their fair share. QoS will not necessarily provide you increased bandwidth, but it will offer you a choice in how you use it.

22. REMOTE ACCESS - A CRITICAL PART OF DISASTER RECOVERY

Scott Welch – The critical question for IT managers in charge of disaster recovery is how long it will take to get back up and running, and how much data your end users will lose.

24. FOUR LESSONS THAT SHOULD CHANGE YOUR BUSINESS

Dave Patterson & Dietmar Kubasta – The underlying lesson of this article: "One rarely wants to have to learn from one's own misfortune." We cite four unique lessons to encourage IT Managers to discuss this issue with their non-IT colleagues.

28. BUSINESS INTELLIGENCE with Jackie

Jackie Jansen – Indexing with DB2 UDB for iSeries

"A database index is very similar to an index in a book. It points you to the pages of the database table that you want to locate. Without an index in a book you have to look through the entire book to find what you want. The same is true with tables on the iSeries...."

29. THE GOLD PAGE

30. TUG NOTES

30. INDEX OF ADVERTISERS

Deadline for the next issue: Feb. 8, 2002

TORONTO USERS GROUP for Midrange Systems TUG eServer magazine

is a regular publication of the Toronto Users Group for Midrange Systems (TUG), and is distributed to members and industry associates six times per year. It contains updates on activities of the group, as well as articles from members and non-members which are of general interest to the "eServer community." All rights reserved. Articles may be reprinted only with permission. Manuscripts should be submitted to the Editor via e-mail. (See address below.)

TUG is a not-for-profit organization that promotes knowledge of the iSeries, pSeries, AS/400, RS/6000, and other midrange technologies. Inquiries about the users group, and subscription enquiries, should be directed to our Association Manager, Wende E. Boddy, at the TUG office, **36 Toronto Street, Suite 850, Toronto, Ontario, Canada M5C 2C5.** Phone: 905-607-2546 Toll Free: 1-888-607-2546, Fax: 905-607-2547, E-mail: admin@tug.ca.
