

# THE AGENDA for our next Meeting of Members Wednesday, November 20, 2002

LOCATION: *Toronto/Yorkdale Travelodge Hotel*  
2737 Keele Street, (at Highway 401) Toronto, Ontario

## Session 1 – 5:00 PM

SPEAKER: **Jim Balsillie, CO-CEO, Research in Motion**

*Jim Balsillie*

## Where is Wireless Going?

Chairman and Co-Chief Executive Officer of Research in Motion Limited, Jim Balsillie directs the company's strategy, business development and finance. Based in Waterloo, Ontario, Research In Motion (RIM) is a world leader in the mobile communications market, with a history of developing breakthrough wireless solutions. A Chartered Accountant who earned a B. Comm. Degree at the University of Toronto and an MBA from Harvard University, Mr. Balsillie joined Research In Motion in 1992. He has also served as Executive Vice President and a Director of Sutherland-Shultz Limited in Kitchener, Ontario, and held senior positions at Ernst & Young in Toronto. **Jim will address TUG on the future of wireless technologies.**

## Intermission – 6:00 PM TUG Meeting of Members (MoM)

• Mingle and network with professional colleagues. • Enter the draw for one of our fabulous door prizes. To be eligible to win you must be a paid up Member and be in attendance when the draw is held at the end of the meeting. • Enjoy our complimentary buffet dinner – this month it's Szechwan chicken stir fry with Chinese style vegetables and flash fried in a wok, with fried rice. Anyone hungry? • To help us plan, please advise the TUG office of your intention to participate. You can call, fax, or use the TUG web-site to register, (stating: name, company, phone number, and number attending). [www.tug.ca](http://www.tug.ca) • Do we have your current e-mail address?

## Session 2 – 7:00 PM

SPEAKER: **Eden Watt, LANSA**

## Architecting and Extending iSeries for Web, Wireless and XML

Eden Watt is LANSA's Director of Professional Services for North America. She and her project teams have been involved in the management and design of some significant eBusiness deployments, including many of the early iSeries-based web sites, wireless, and even Web Services solutions. Eden has written numerous articles for technology publications, and is co-author of the new book "Understanding eBusiness Application Integration". She is a regular presenter at COMMON and frequently speaks at conferences and user group meetings.

**Session Synopsis:** In addition to being a powerful server for legacy and ERP applications, the iSeries platform has become a major player in the eBusiness market. Solution examples and approaches, for extending iSeries applications, for wireless eBusiness and Web Services will be discussed. The session will provide an overview on wireless application solutions for iSeries, development possibilities, and integration strategies to back end legacy systems.

**What topics would you like to see in future?** Drop us a line with your suggestions at: [leo@tug.ca](mailto:leo@tug.ca)
