4. PRESIDENT'S CORNER & BOARD LIST

Richard Dolewski

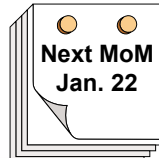

7. Feature Article:

WHAT'S IN THE IBM TOOLBOX FOR JAVA V5R1?

Rob Wiedrich – IBM Toolbox for Java is a set of Java classes that allow you to access iSeries data through a Java program. With these classes, you can write client/server applications, applets, and servlets that work with your iSeries.

10. THE AGENDA

At our next Meeting of Members (MoM), TUG will present Tom McBride, on “Integrated File System”; and Rob Wiedrich, on “IBM Toolbox for Java.”

12. WEBSHERE DEVELOPMENT STUDIO CLIENT

Phil Coulthard & George Farr – (Second of Two Parts) The Web Tooling in WDS is massive and awesome. We can give you a taste...

16. COMMUNICATING WITH SAM – Windows/iSeries Storage Strategies

Sam Johnston – Question: “What recommendations can you make on how we can bring some of the order and discipline of our iSeries platform to our Windows environment?”

19. TEC 2003 - SESSION GRID

22. PROJECT MANAGEMENT TALES – “The Sponsor’s Lessons”

Debbie Gallagher – “...the implementation had been done with no clear understanding of the goals of the new system, the benefits expected, or any vision of what could be achieved by implementing CRM.”

23. TUG’s HEART & STROKE DONATION

Vaughn Dragland – Once again the TUG Members show their giving spirit.

24. AUTOMATED JAVA CONVERSION

Florin Mihaila & Tom Holmes – Migrating platforms and converting applications from any legacy language to Java is no small task...

28. BENEFITS OF TUG “GOLD” MEMBERSHIP

Jay Burford – There are a number of obvious reasons for companies to become Gold Members of TUG, and some not so obvious...

29. TUG MoM REVIEW

Eveline Gaede – Coverage of the November 2002 Meeting of Members, with speakers Jim Balsille and Eden Watt.

Eden Watt

32. QMQR

Aziz Saleh – This article covers some of the hidden advantages of using the QM Query tool option rather than the traditional WRKQRY.

Jim Balsille

33. @TUG.CA – Letters from Readers

36. BUSINESS INTELLIGENCE with Jackie – Warehouse Management Tools

Jackie Jansen – In the last few issues we have discussed what an informational database is and what tools you would use to access it. Today we are going to look at how you would build and manage this informational database.

37. LIST OF FUTURE COMMON CONFERENCES

37. THE GOLD PAGE

38. TUG NOTES

38. INDEX OF ADVERTISERS

Deadline for the next issue: Feb. 7, 2003

TORONTO USERS GROUP for Midrange Systems

TUG eServer magazine

is a regular publication of the Toronto Users Group for Midrange Systems (TUG), and is distributed to members and industry associates six times per year. It contains updates on activities of the group, as well as articles from members and non-members which are of general interest to the “eServer community.” All rights reserved. Articles may be reprinted only with permission. Manuscripts should be submitted to the Editor via e-mail. (See address below.)

TUG is a not-for-profit organization that promotes knowledge of the iSeries, pSeries, AS/400, RS/6000, and other midrange technologies. Inquiries about the users group, and subscription enquiries, should be directed to our Association Manager, Wende E. Boddy, at the TUG office, 36 Toronto Street, Suite 850, Toronto, Ontario, Canada M5C 2C5. Phone: 905-607-2546 Toll Free: 1-888-607-2546, Fax: 905-607-2547, E-mail: admin@tug.ca.
