

CONTENTS

Volume 18, Number 4 ~ March 2003

4. PRESIDENT'S CORNER

Richard Dolewski

6. Theme Article:

THE POWER OF iSERIES APIS

Vaughn Dragland – The power of APIs lie in their ability to monitor and control access to your iSeries' data by outside systems and routines...

8. THE AGENDA

At our next Meeting of Members (MoM), TUG will present Mitchell Shnier, on "In-building Wireless LANs"; and Jim Sloan, on "iSeries APIs."

10. Feature Article:

IN-BUILDING WIRELESS NETWORKS

Mitchell Shnier – The iSeries' support for Ethernet and TCP/IP means that users have much greater flexibility in choosing products for wireless applications.

16. RPG/COBOL TOOLING IN WEBSHERE DEVELOPMENT STUDIO CLIENT

Phil Coulthard & George Farr – "We won't cover all the details here, but will get you excited enough to try it on your own! ...maybe even excited enough to read the help."

22. PROJECT MANAGEMENT TALES – "Survivor"

Debbie Gallagher – As the developers became more competent, other Acme project managers began poaching them for other projects where there was a greater likelihood of being paid for the work...

26. COMMUNICATING WITH SAM – IVR vs. VoiceXML

Sam Johnston – Question: "Will the new IP-based IVR platforms alleviate our concerns about implementing an IVR front-end?"

30. TUG MoM REVIEW

Alkarim Sachedina – Coverage of the January 2003 Meeting of Members, with speakers Tom McBride and Robb Wiedrich.

Tom McBride

Robb Wiedrich

33. TEC 2003 - UPDATED SESSION GRID

34. WHAT'S IN THE IBM TOOLBOX FOR JAVA V5R2?

Robb Wiedrich – IBM Toolbox for Java is a set of Java classes that allow you to access iSeries data through a Java program. With these classes, you can write client/server applications, applets, and servlets that work with your iSeries.

39. UPCOMING 2003 IBM TECHNICAL CONFERENCES

40. UNIX - FIRST ENCOUNTER (1st of a 3-part series)

Thibault Dambrine – Part 1 describes the basics of UNIX, how it came to be and how the UNIX architecture differs from that of the iSeries'.

44. BUSINESS INTELLIGENCE with Jackie

(Are Computers Necessary for Business Analysis?)

Jackie Jansen – Jackie takes a hiatus from Data Mining for a moment, to test your barin power with a humorous quiz.

45. LIST OF FUTURE COMMON CONFERENCES

45. THE GOLD PAGE

46. TUG NOTES

46. INDEX OF ADVERTISERS

Deadline for the next issue: Apr. 11, 2003

TORONTO USERS GROUP
for Midrange Systems

TUG eServer magazine

is a regular publication of the Toronto Users Group for Midrange Systems (TUG), and is distributed to members and industry associates six times per year. It contains updates on activities of the group, as well as articles from members and non-members which are of general interest to the "eServer community." All rights reserved. Articles may be reprinted only with permission. Manuscripts should be submitted to the Editor via e-mail. (See address below.)

TUG is a not-for-profit organization that promotes knowledge of the iSeries, pSeries, AS/400, RS/6000, and other midrange technologies. Inquiries about the users group, and subscription enquiries, should be directed to our Association Manager, Wende E. Boddy, at the TUG office, 36 Toronto Street, Suite 850, Toronto, Ontario, Canada M5C 2C5. Phone: 905-607-2546 Toll Free: 1-888-607-2546, Fax: 905-607-2547, E-mail: admin@tug.ca.
