6. DIRECTORY OF DIRECTORS

8. Feature Article:

THE SPAMMING DEBATE

(E-mail's Dark Side)

Peter Sidwell – Bulk emailing to millions of people all over the world is a practice known by the unlikely name of SPAMMING, which no two nations, states or people have been able to accurately and unambiguously define...

12. TUG MoM REVIEW

Eveline Gaede – Full coverage of our recent Meeting of Members, with speakers **Mike Warkentin** from DataMirror Corporation (“Where would you rather be...?”) on the topic of *High Availability with iSeries*, and **Brian Bennett** from Extol International, on *EDI and The Internet*.

16. ADDITIONAL BENEFITS OF BEING A MEMBER OF TUG

Mike Warkentin

Jay Burford – “This time I would like to explore some aspects of the other end of the membership spectrum, the Individual Membership... an individual TUG Membership is one area that you may wish to consider as a necessary, perhaps even a mandatory expense in order to invest in yourself...”

20. PROJECT MANAGEMENT TALES – “An Expert, But at What?”

Debbie Gallagher – “The project manager had an uneasy feeling about the sub-contractor. However, the previous complaints had been vague, and the sub-contractor’s other references suggested she was an expert.”

22. COMMUNICATING WITH SAM – Enterprise Storage Strategies

Sam Johnston – If you are in the process of consolidating multiple storage islands into a corporate SAN environment, what do you need to know about including the iSeries with other server platforms?

25. ISERIES TO UNIX - FIRST CONTACT (3rd of a 3-part series)

Thibault Dambrine – Part 3 is all about Shell Scripting, the UNIX equivalent of the iSeries’ CL language.

28. @tug.ca – READER FEEDBACK

29. THE 15TH ANNUAL TUG GOLF CLASSIC

Wende Boddy – Write-up and photos from TUG’s main social event of the season – the TUG Golf Tournament at Nobleton Lakes.

31. UPCOMING IBM CONFERENCES

32. JACKIE's Forum - Tools for iSeries Programmers

Jackie Jansen – Many individuals in the iSeries community have not moved forward and kept pace with technology. (You won’t find programmers on other systems using anything but PC based graphical application development tools...)

41. LIST OF FUTURE COMMON CONFERENCES

41. THE GOLD PAGE

42. TUG NOTES

42. INDEX OF ADVERTISERS

Deadline for the next issue: Aug. 8, 2003

TORONTO USERS GROUP for Midrange Systems

TUG eServer magazine

is a regular publication of the Toronto Users Group for Midrange Systems (TUG), and is distributed to members and industry associates six times per year. It contains updates on activities of the group, as well as articles from members and non-members which are of general interest to the “eServer community.” All rights reserved. Articles may be reprinted only with permission. Manuscripts should be submitted to the Editor via e-mail. (See address below.)

TUG is a not-for-profit organization that promotes knowledge of the iSeries, pSeries, AS/400, RS/6000, and other midrange technologies. Inquiries about the users group, and subscription enquiries, should be directed to our Association Manager, Wende E. Boddy, at the TUG office, 36 Toronto Street, Suite 850, Toronto, Ontario, Canada M5C 2C5. Phone: 905-607-2546 Toll Free: 1-888-607-2546, Fax: 905-607-2547, E-mail: admin@tug.ca.
