

# managed availability

70-90% of all downtime is directly associated with planned activities

5% of downtime can be attributed to unpredictable events

how much time  
do you have  
for downtime?

What are you doing about managed availability?  
Do you have continuous operations, disaster  
recovery & workload balancing?

## Where's the extra time in your day?

Blair Technology's managed availability solutions  
provide seamless access to data availability and  
continuous operations. Blair gives your time back,  
allowing you to put 100% focus, back on business.

So, call a Blair rep now and tell them;

**"I don't have time for downtime!"**
