06 DIRECTORY OF DIRECTORS

07 TUG MoM REVIEW – THE SEPTEMBER MEETING OF MEMBERS

Δ *Stephen Bingham*

Three speakers (Claus Weiss, Peter Beggs, and Mark Buchner) wowed us at the IBM Toronto Lab.

10 THE AGENDA

Our November Meeting of Members will be held once again at the Woodbine Racetrack, where Guy Vig will present the incredible enhancements to CL, in the V5R3 release of i5/OS. Part 1 will be on Command Documentation and part 2 will cover the CL Compiler.

11 V5R3 CONTROL LANGUAGE: STUNNING DEVELOPMENTS

Δ *Dan Riehl and Guy Vig*

V5R3 delivers lots of cool CL enhancements, including new integer data types, five new command structures, support for multiple files, and more.

16 PROJECT MANAGEMENT TALES

Δ *Debbie Gallagher*

(This month's PM Tale is entitled *No Time to Plan, Busy Coding.*) "although the programmer's experience with the French legacy system provided her with a reasonably good knowledge of the business and its system requirements, she had no experience with managing a project."

Jay (TEC Butterfly) Burford

20 PLAN TO ATTEND TEC 2005

Δ *Dan Duffy*

22 AT COMMON AS A FIRST-TIMER

Δ *Alkarim Sachedina*

24 TUG MoM REVIEW – THE OCTOBER MEETING OF MEMBERS

Δ *Stephen Bingham*

Imbedded within the COMMON Conference was a special MoM, with speakers John Reed and Skip Marchesani.

26 THE IBM WEBFACING TOOL – A BETTER USER INTERFACE

Δ *George Farr and Phil Coulthard*

The second step in the RPG-to-J2EE Roadmap involves adding a modern, Web-based user interface to existing 5250 applications. The IBM WebFacing Tool lets you do just this.

29 COMMUNICATING WITH SAM

Δ *Sam Johnston*

Consolidating Storage Area Networks – There is little doubt that we can expect exponential growth in the demand to secure, preserve and store data records.

32 JACKIE'S FORUM Δ *Jackie Jansen*

AIX under the covers

IBM has recently added AIX 5L Version 5.2 and Version 5.3 to its list of operating systems that will run on the eServer i5!

33 THE GOLD PAGE

34 TUG NOTES & INDEX OF ADVERTISERS

TUG eServer magazine

is a regular publication of the Toronto Users Group for Midrange Systems (TUG), and is distributed to members and industry associates six times per year. It contains updates on activities of the group, as well as articles from members and non-members, which are of general interest to the "eServer community." All rights reserved. Articles may be reprinted only with permission. Manuscripts should be submitted to the Editor via email. (See address below.)

TUG is a not-for-profit organization that promotes knowledge of the IBM iSeries, pSeries, AS/400, RS/6000, i5, p5, and other midrange technologies. Questions about the users group, and subscription enquiries, should be directed to our Association Manager, Wende E. Boddy, at the TUG office, 36 Toronto Street, Suite 850, Toronto, Ontario, Canada M5C 2C5. Phone: 905-607-2546 Toll Free: 1-888-607-2546 Fax: 905-607-2547 Email: admin@tug.ca
