Beyond Query/400 IBM Announces DB2 Web Query for System i

5:00 pm Session Abstract

Product Preview: Come and see IBM's new product that will replace Query/400. DB2 Web Query is a robust, extensible, and productive reporting solution. It will provide reporting and graphing assistants as well as a WYSIWYG "painter". DB2 Web Query will allow you to improve the look and functionality of your existing Query/400 reports. Would you like your Query output sent to a PDF file? What about to MS Excel? Would you like to see your existing reports formatted as graphs and charts? All this and more is possible with the new product. You can create new reports with

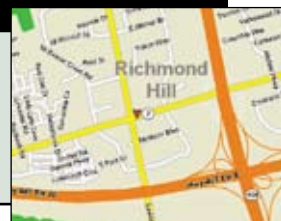

Speaker: Jackie Jansen is a Senior Consulting IT Specialist. She currently works in the IBM Americas Advanced Technical Support Solutions Centre. Jackie is a frequent speaker at System i Technical Conferences and User Group meetings. Contact her at jjansen@ca.ibm.com.

slicing and dicing capabilities. You can enable your end users on the go to view and analyze their reports in disconnected mode. DB2 Web Query is an end-user reporting tool that can be used effectively for operational or data warehouse reporting purposes. This session will include live demonstrations of creating reports, graphs and dashboards with the new product. Come and see what all the excitement and buzz is about!

Magic of System i; What IBM Will Never Tell You!

7:00 pm Session Abstract

System i is a uniquely productive system, but why doesn't it have the industry-wide reputation it deserves? What are the forces inside IBM that have prevented IBM from effectively marketing System i? What can we do to help others understand the value of System i? Get answers to these and other important questions as Randall Munson, technology sales expert and best selling author presents "Magic of System i; What IBM Will Never Tell You!" sponsored by RJS Software Systems, Inc. Be there for an insightful, fun-filled presentation by COMMON's top award-winning speaker—and bring along those that have not yet realized the magic of System i!

Speaker: Randall Munson has garnered more than 60 Gold Medals in the International Speaker Olympics, an IBM Award for Excellence, and is listed in the Who's Who of Professional Speaking. He has been named a Certified Speaking Professional, a designation held by less than 7% of the professional speakers in the world.
