

## C\*RN BYTES

By Ken Davis

The CFO was thinking,  
And asking IT "Why,  
If AS/400 is working well,  
Why switch to System i?"

Over the hill  
And through the woods,  
The new System i  
Will deliver the goods.

Every year we like to go  
golfing,  
It's something that TUG  
likes to do,  
We act kinda funny  
And raise lotsa money  
So charities benefit too.

The Poet's not chatty  
He can't grow a beard,  
And on reflection  
He is a tad weird.

# COMMON Seminar Series a Success in Mississauga

By Stephen Bingham

On June 7th, COMMON, in conjunction with TUG and COiN, presented **Carole Miner** of IBM for a full day session called "A Deep Dive into iSeries Access for the Web." This is one in a series of seminars that COMMON is presenting across Canada and the United States. The session, held at the Living Arts Center Mississauga was well attended and provided all with a solid view of how we will connect to our System i in the future.

I invite you to visit the [www.COMMON.ORG/seminars](http://www.COMMON.ORG/seminars) Web site and checkout the remaining available seminars.

*COMMON Seminar Series speaker Carole Miner*

Check back periodically as more may be added. If there is a session that is of interest to you or your co-workers, let us know by sending an e-mail to **Wende Boddy** at [admin@tug.ca](mailto:admin@tug.ca). If there is topic that you do not see, let us know that as well. Your topic might be selected for a future one day seminar or a session at TEC.

Thanks to all who attended and made this event a success!

**Steve Bingham** is a Vice President of TUG. He can be reached at [Stephen.bingham@cgi.com](mailto:Stephen.bingham@cgi.com).

## Who reads the TUG magazine?

Over 5,000 IT professionals in the GTA, and across the country.
