

TUG CONTENTS

SEPTEMBER/OCTOBER 2007 VOLUME 23 NUMBER 1

- 2** **PRESIDENT'S CORNER**
By Léo Lefebvre

- 4** **DIRECTORY OF DIRECTORS**
Contact information for TUG's key contributors

- 5** **WHAT IS A SYSTEM i?**
One way to determine what a System i is, is to look at what it is not. For example, it is not a hardware box...
By Dr. Frank G. Soltis

- 8** **PROFILE ON DR. FRANK SOLTIS**
Get to know TUG's special guest speaker—IBM System i Chief Scientist

- 9** **IBM MASHES SYSTEM i WITH P (AND MORE)**
— then separates large from small in massive organizational shakeup.
By: Chris Maxcer

- 10** **THE AGENDA**
Our next Meeting of Members will feature speakers Robert Eckersley and Dr. Frank Soltis at the Sheraton Parkway Hotel Toronto North on Wednesday, October 3rd.

- 11** **SYSTEM i DIRECTIONS – IBM CROSS CANADA TOUR ROADSHOW SCHEDULE**

- 12** **ENSURING BUSINESS SURVIVAL**
Executives want assurances that information assets—data and applications—can remain available no matter what happens to their production systems.
By Edward Vesely

- 14** **WHY IS YOUR IT PROJECT BEING AUDITED?**
The purpose of this article is to provide some information on the reasons why your IT project could be audited. You'll notice that the reasons have nothing to do with *you!*
By Debbie Gallagher

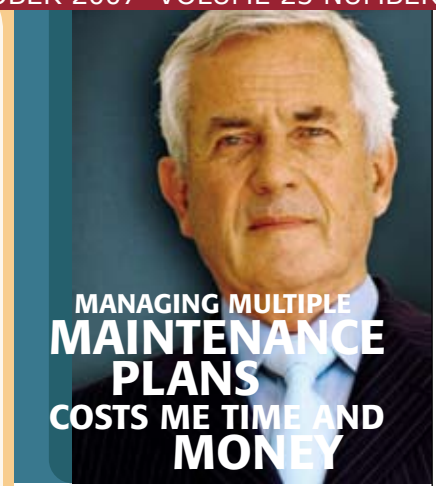

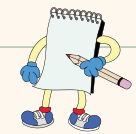

- 16** **A SHIFT WILL HAPPEN IN THE FUTURE**
With millions of Baby Boomers in North America, (many of whom will choose at least some type of retirement) the looming labor shortage will continue and become a significant damper on economic growth.
By James O. Armstrong

- 17** **SENECA COLLEGE COLUMN**
Information about Seneca's Coop program, teacher and student perspectives, and the System i subjects currently being taught are just a few of the areas that will be covered in this new column.
By Russell Pangborn

- 18** **JACKIE'S FORUM**
iSeries Navigator Database Tasks
iSeries Navigator is IBM's GUI interface to DB2 for i5/OS and is an integral component of the operating system.
By Jackie Jansen

- 19** **THE GOLD PAGE**
Directory of TUG's elite "Gold Members"

- 20** **TUG NOTES**
Things you need to know — including the list of upcoming events

MANAGING MULTIPLE MAINTENANCE PLANS COSTS ME TIME AND MONEY

BRAINS II SERVICE CONSOLIDATION—ONE CALL DOES IT ALL.

Hardware consolidation always boosts performance, efficiency and manageability. Yet, companies need to recognize that Service Consolidation delivers even more of these benefits. Additionally, Service Consolidation from Brains II provides the foundation for hardware consolidation.

Manufacturers aren't always the best sources of service. Having each supplier service its equipment costs more and creates performance inefficiencies in heterogeneous networks.

Multi-vendor Service Consolidation from Brains II can save you 30% to 40% on maintenance costs and simplify management with only one contract and one number to call.
